

Aniket Bhandwalkar

Nagpur, Maharashtra, India | +91 9356800576 | aniketbhandwalkar83@gmail.com | LinkedIn | GitHub

Professional Summary

- Backend & System Integration Engineer with a strong foundation in full-stack architecture. Experienced in building scalable platforms (Java, MERN) to orchestrate and serve AI models (LLMs, Vision) for real-world applications.

Experience

Capgemini India | [\[Certificate\]](#)

Jan 2026 – May 2026

Automated Independent Validation System (AIVS) Intern, Exceller Edge Fellowship Program

- Engineered a scalable, autonomous AI-driven Java test automation framework integrating advanced UI and API orchestration.
- **Field of Work:** Java Automation Testing, Agent Decision Logic, and CI/CD Pipeline Integration.
- **Skills:** Model Context Protocol (MCP) Integration, AI Agent Orchestration, Automated Web Testing, System Architecture.
- **Technologies:** Java 17, Groq API (Llama 3.3 70B), Anthropic MCP SDK, Selenium, TestNG, Jenkins.
- Integrated the Anthropic MCP SDK to build an intelligent decision classifier for dynamic script generation and AI-driven DOM healing, deployed via Jenkins pipelines for multi-threaded execution and SLA tracking.

Education

Yeshwantrao Chavan College of Engineering, Nagpur, India

Nov 2022 – Jun 2026

- Bachelor of Technology (B.Tech) in Electronics & Telecommunication Engineering.
- CGPA: 8.8/10.

Projects

AI Code Reviewer – *Autonomous Static Analysis & Compliance Agent*

2026

- Built an automated AI code review agent in Java 21 using LangChain4j to enforce proprietary organizational coding standards and detect security vulnerabilities.
- Implemented an overlapping sliding-window chunking engine to process monolithic source files without exceeding LLM context windows, reducing token overhead by 35%.
- Architected a dynamic analysis pipeline connecting Groq (Llama 3.3 70B) for sub-second, structured JSON code analysis and scoring.
- **Tech Stack:** Java 21, LangChain4j, Groq (Llama 3.3), Prompt Engineering, Maven.

Deep Learning Liver Fibrosis Grading & Medical LLM Agent

2025 – 2026

- Engineered a full-stack platform using the MERN stack (MongoDB, Express.js, React, Node.js) to serve a computer vision model for medical image classification.
- Designed asynchronous REST APIs in Node.js to orchestrate image payloads, manage inference latency tradeoffs, and securely log diagnostic results in MongoDB.
- Integrated a Medical Large Language Model (LLM) via API into the backend to provide conversational diagnostic support based on the vision model's output.
- **Tech Stack:** MERN Stack (MongoDB, Express.js, React, Node.js), REST APIs, System Architecture, JSON/API Orchestration.

AdminEase – User Administration Dashboard

2025

- Built an admin dashboard for small businesses such as salons and retail shops with CRUD operations, analytics, and role-based access control.
- Implemented a caching layer using Spring Cache to reduce redundant database queries, improving API response time by 45%.
- Developed RESTful APIs and integrated MySQL for persistent storage; optimized queries for high-traffic scenarios.
- **Tech Stack:** Spring Boot, MySQL, Spring Cache, REST APIs.

Technical Skills

Languages: Python, C++ , Java, JavaScript, SQL
Backend & Frameworks: Node.js, Express.js, React, Spring Boot, REST APIs, LangChain4j
AI Integration: LLMs (Llama, Gemini), Model Context Protocol (MCP), API Orchestration, JSON Parsing
Databases & Tools: MongoDB, MySQL, Git, Maven, Jenkins

Profiles & Achievements

LeetCode
• 180+ problems solved, 100+ day streak, 2 badges.
GitHub
• Active contributor with multiple repositories.

Leadership & Extracurriculars

Literary Head, Icon 2024 – College Technical Festival 2024
• Led events for 500+ participants, managed logistics, and coordinated cross-functional teams.
• Developed leadership, communication, and project management skills through hands-on experience.

Honors and Awards

Communication Skills Top Performer Apr 2025
Yeshwantrao Chavan College of Engineering
• Awarded a trophy and certificate for being a top performer in Presentation, Group Discussion, and all aspects of Listening, Speaking, Reading, and Writing skills.
